NOTES

- 1. Easements are hereby reserved, in, over, and under areas designated on this plat as Drainage Easement or Utility Easement. Easements designated as Drainage and Utility easements permit the construction, operation, and maintenance of all public and quasi-public utilities above, beneath, and on the surface of the ground and, where necessary, for the construction, operation, and maintenance of service connections to all adjacent lots and lands and for storm water drainage.
2. Easements designated as "Sanitary Easement" (San. easmt.) shall mean an exclusive sanitary sewer easement over, through, under, within, upon, and across the area described on the plat, together with ingress and egress over reasonable routes across Grantor's tracts that adjoin the easement area when exercising the purposes of this easement, exclusively for construction, operation and maintenance of public and/or private sanitary sewers, service connections, manholes, force mains, valves, and other sanitary appurtenances. Sanitary easements may be crossed by other utilities as expressed herein.
3. Within those areas of land designated "Drainage Easement" on this plat, an additional easement is hereby reserved for the purpose of constructing, operating, and maintaining major storm water drainage swales and/or other above ground storm water drainage facilities. No above grade structures, dams, or other obstructions to the flow of storm water runoff are permitted within Drainage Easement areas as delineated on this plat. Easement areas shown hereon outside of the platted area are within lands owned by the undersigned and easements are hereby reserved for the uses and purposes expressed herein.
4. All easements and reserves that overlap or cover all or portions of a "Sanitary Easement" shall be subject to the provisions of the "Sanitary Easement" within the overlap or cover areas. Work to facilitate surface water drainage within the overlap or cover areas is not restricted; however, any proposed new storm sewer pipes, inlets, catch basins, structures, or other appurtenances or infrastructure features subsequent to those which were permitted with the original sanitary sewer improvements shall only be permitted if approved by the governing stormwater authority and the Delaware County Sanitary Engineer.
5. For any easement shown on this plat that contains a storm sewer, culvert, over land upon ditch flood route, detention basin, retention basin and/or other storm water structure (herein referred to as storm sewer), the storm sewer rights are senior to the rights of any other public or private utility or interest utilizing the easement, except for overlap areas with a "Sanitary Easement". Any costs associated with the damage, repair, replacement or relocation of any buried or above ground facility or structure that is necessary to allow the maintenance, repair or replacement of the storm sewer shall be the responsibility of the owner of said utility, facility or structure. When maintenance, repair or replacement of a storm sewer causes the removal of any trees, plantings, landscaping, fencing, or any other feature located within the easement, with the exception of driveways and pedestrian pathways, the replacement and cost of said items shall be the responsibility of the owner of the underlying property or homeowner's association if applicable.
6. Any landscape features, such as trees, fences, retaining walls, etc. in drainage easements shall be reviewed by the City of Powell. The City will review the proposed improvements to assure that the improvements will not interfere with the storm water control facilities.
7. No buildings, sheds, decks, pools, or other such structures, or the footers or foundations of any structures or features shall be constructed above or below ground within the limits of any drainage easements unless said structure is approved in writing by the City of Powell.
8. No other utility lines, conduits, mains, valves, boxes, pedestals, transformers, or other utility appurtenances are permitted within any Sanitary Easement unless they are approved on the signed sanitary sewer plans, or otherwise approved in writing by the Delaware County Sanitary Engineer, except that the rights granted to Delco Water Company, its successors, and assigns to install, service and maintain residential water services, meter crocks and appurtenances as designated on this plat are not restricted.
9. Other utility crossings within the Sanitary Easement are only permitted as described herein, unless they are approved on the signed sanitary sewer plans or otherwise approved in writing by the Delaware County Sanitary Engineer. Right angle or near right angle utility crossings ("near right angle") is defined as an angle between eighty (80) degrees and one-hundred (100) degrees over, across, or under a sanitary sewer or force main and over, across, under, or through the Sanitary Easement are not hereby restricted, except that all utility crossings under a sanitary sewer or force main shall be subject to the review and approval of the Delaware County Sanitary Engineer.
10. No buildings, sheds, decks, pools, or other such structures, or the footers or foundations of any structures or features shall be constructed above or below ground within the limits of the Sanitary Easement unless said structure is approved in writing by the Delaware County Sanitary Engineer.
11. Any landscaping features, such as, but not limited to, trees, fences, signs, stackable retaining walls, etc., within the Sanitary Easement area shall be reviewed for approval by the Delaware County Sanitary Engineer prior to installation.
12. When maintenance, repair or replacement of public sanitary sewers, manholes, force mains, valves, and other public sanitary appurtenances causes the removal of any trees, plantings, landscaping, fence, or any other feature located within the Sanitary Easement, with the exception of driveways and pedestrian pathways, the replacement and cost of said items shall be the responsibility of the owner of the underlying property or homeowner's association if applicable.
13. The addition or removal of any dirt, soil, fill, or other changes to the ground elevation above the sanitary sewer or force main and/or within the Sanitary Easement shall be subject to approval of the Delaware County Sanitary Engineer.
14. The Delaware County Sanitary Engineer reserves the right to require that all earthwork within the Sanitary Easement be graded to such a level that will, in his or her opinion, not jeopardize the structural integrity of, infringe upon, or limit the County's reasonable access to the sanitary sewer or force main.
15. The purpose of this plat is to show certain property, right of way, easement boundaries as of the time of platting. At the request of zoning and planning authorities at the time of platting, this plat shows some of the limitations and requirements of the zoning code in effect on the date of filing this plat for reference only. The limitations and requirements may change from time to time and should be reviewed to determine the then current applicable use and development limitations of the zoning code as adopted by the government authority having jurisdiction. The then applicable zoning code shall have control over conflicting limitations and requirements that may be shown on this plat. This note should not be construed as creating plat or subdivision restrictions, private use restrictions, covenants running with the land or title encumbrances of any nature, except to the extent specifically identified as such.
16. At the time of platting, electric, cable, and telephone service providers have not issued information required so that easement areas, in addition to those shown on this plat as deemed necessary by these providers for the installation and maintenance of all of their main lines facilities, could conveniently be shown on this plat. Existing recorded easement information about The Reserve at Scioto Glenn Phase III or any part thereof can be acquired by a competent examination of the then current public road records, including those in the Delaware County Recorder's Office.
17. No structure or building shall be placed upon, in or under the area designated as "Tree Preservation Zone" hereon except for storm water drainage facilities and underground utility systems. The natural state of said area, to include trees, existing ground and water drainage therein, shall not be disturbed. The owner of the fee simple title to each lot that has within it a portion of said "Tree Preservation Zone" shall care for and maintain said portion of the "Tree Preservation Zone" that falls within the limits of said owner's lot.
18. A non-exclusive easement is hereby specifically granted unto Del-Co Water Company Inc., its successors and assigns, for the location of water lines, valves and appurtenances within the rights-of-way hereby dedicated and within areas designated hereon as "Utility Easement" or "Drainage Easement" that are located alongside the rights-of-way hereby dedicated. Also granted is the right of Del-Co Water Company Inc., to install service and maintain appurtenances in said easement areas alongside said rights-of-way.
19. Reserve "C" (Lot 3665) as shown hereon will be owned and maintained by the City of Powell for purposes of providing a public park site. All facilities located within and through said Reserve "C" will be maintained by the City of Powell, with the exception of the retention facilities and appurtenant inlet and outlet piping and structures (adjacent to Lots 3616-3618), which will be maintained by The Reserve at Scioto Glenn Homeowners Association.
20. Reserve "D" (Lot 3666) as shown hereon will be owned and maintained by The Reserve at Scioto Glenn Homeowners Association for the purposes of open space, stormwater management facilities and other uses allowed by the then current zoning. The asphalt path located within and through said Reserve "D" will be for public use and will be maintained by the City of Powell.
21. Delaware Soil and Water District and their assigns are granted permission to access drainage easements surrounding storm water basins and drainage easements abutting properties located within Concord and Liberty Townships.
22. No fences or other obstructions which will impair access to the sanitary manholes are permitted on lots 3639, 3640, 3643, and 3644.

BASIS OF BEARINGS
BASIS OF BEARINGS: THE BEARINGS SHOWN ON THIS PLAT ARE BASED THE OHIO STATE PLANE COORDINATE SYSTEM NAD83, NSRS 2007, NORTH ZONE.

FLOOD DESIGNATION
BY GRAPHIC PLOTTING ONLY: THE AREA SHOWN HEREON IS LOCATED IN ZONE "X" PER FEDERAL EMERGENCY MANAGEMENT AGENCY ON FLOOD INSURANCE RATE MAP, COMMUNITY PANEL NO. 39041C0230K (NOT PRINTED), WITH AN EFFECTIVE DATE OF APRIL 16, 2009, PER FLOOD INSURANCE RATE INDEK MAP, COMMUNITY PANEL NO. 39041C10DDA, IN DELAWARE COUNTY, OHIO. NO FIELD SURVEYING WAS PERFORMED TO DETERMINE THESE ZONES.

SOURCE OF DATA: THE SOURCES OF RECORDED SURVEY DATA ARE THE RECORDS OF THE DELAWARE COUNTY, OHIO, RECORDER, REFERENCED IN THE PLAN AND TEXT OF THIS PLAT.

IRON PINS, WHERE INDICATED, ARE TO BE SET AND ARE IRON PIPES, THIRTEEN-SIXTEENTHS INCH INSIDE DIAMETER, THIRTY-INCHES LONG WITH A PLASTIC CAP PLACED IN THE TOP BEARING THE INSCRIPTION "ADVANCED 7861". THESE MARKERS SHALL BE SET FOLLOWING THE COMPLETION OF THE CONSTRUCTION/INSTALLATION OF THE STREET PAVEMENT AND UTILITIES.

PERMANENT MARKERS, WHERE INDICATED, ARE TO BE SET AND ARE ONE-INCH DIAMETER, THIRTY-INCH LONG, SOLID IRON PINS, WITH THE TOP END FLUSH WITH THE SURFACE OF THE GROUND AND THEN CAPPED WITH AN ALUMINUM CAP STAMPED "ADVANCED". ONCE INSTALLED, THE TOP OF THE CAP SHALL BE MARKED (PUNCHED) TO RECORD THE ACTUAL LOCATION OF THE POINT. THESE MARKERS SHALL BE SET FOLLOWING THE COMPLETION OF THE CONSTRUCTION/INSTALLATION OF THE STREET PAVEMENT AND UTILITIES.

I HEREBY STATE THAT THIS SURVEY IS BASED ON ACTUAL FIELD MEASUREMENTS AND IS CORRECT TO THE BEST OF MY KNOWLEDGE. ALL DIMENSIONS ARE IN FEET AND DECIMAL PARTS THEREOF.
